PROJECTS

Outgoer	2023 - Present
---------	----------------

Outgoer is a dynamic social media app similar to Instagram, offering features like post creation, reels, and stories enhanced with filters. Users can engage through comments and real-time chats, as well as group chatting for community discussions. Unique to Outgoer, users can view others' locations on Google Maps and easily manage multiple accounts, making it a versatile platform for social interaction and content sharing.

- **Content Creation:** Users can create posts, reels, and stories with various filters.
- **Real-Time Chat:** Users can chat in real time, making communication seamless.
- **Group Chatting:** Facilitates group conversations for friends and communities.
- **Location Sharing:** Users can see other users' locations on Google Maps within the app.
- **Multiple Account Login:** Supports logging in to multiple accounts for convenience.
- **Live Streaming:** Users can broadcast live video to their followers.
- **Event Organization:** Users can organize and promote parties and events through the app.
- And many other feature

MeetUrFriends	2023 - Present
---------------	----------------

- Developed a dynamic social media platform where users can create and interact with posts, reels, and challenges
- Integrated a **real-time chat system**, enabling users to communicate with others via direct messaging.
- Enabled users to post text, images, and videos, while also implementing features like **liking, commenting, and sharing** posts to enhance user engagement.
- Built a **reel creation** module allowing users to upload and edit short videos with custom effects.
- And many other feature
